**A word from your President  
 By Jerry Morse**

The weather improved just in time for the Memorial Day weekend and temperatures in the 80's are being forecast for the coming week! The Real Estate Market remains hot as well and it's still a great time to be a seller. We have talked about the low inventory of homes for sale the last 4-5 years and that has not changed.

Because of the Pandemic, in-person events for our Association have been few and far between. Now that things are returning to normal let's have some fun! Sign up for our golf outing on August 19<sup>th</sup> at Glen Erin and our "Snappy Hour" at the New Ballpark in Beloit on August 25<sup>th</sup>. If you have not received the details yet, get them from Vicky or Sue and Register!!!

Unofficially summer has started! So, Get out and Enjoy!

Happy Father's Day for all the Dad's out there!

*Jerry*

If you like to do fundraising or have ideas on what we can do as an Association to raise funds for our pledge, please give us a call or email to let us know you are interested. This will be a small task force just until we collect the amount needed to fulfil our obligation. **MLS INFORMATION**

**\*\*\*Listing Input Reminder:** Over a year ago, the National Association of Realtors and Realtor MLSs across the country put in place new rules to prohibit the marketing of "pocket listings" not on the MLS.

Now, all listings, being marketed outside an agent's firm, MUST be entered in the MLS within 1 business day of public marketing. This includes marketing done by, or on behalf of the seller.

If marketing has not yet begun, listings must be entered no later than 4 calendar days from the effective date of the listing contract.

Our members have done fairly well adjusting to this new mandate, but there is still some confusion regarding public marketing. Public marketing begins as soon as you do any of the following:

1. Place a yard sign
2. Distribute information about your new listing to someone outside your own firm
3. Post your listing on a public website
4. Post your listing on a social media platform (including multi-brokerage listing sharing networks)
5. Respond with information about your new listing to an inquiry posted via a public platform -- An example would be responding to an agent looking for upcoming listings via a post on a real estate agent Facebook group.

**As soon as you do any of the above, you MUST enter your listing in the MLS within 1 business day.**

**\*\*\*Within Paragon, each agent is assigned a User Code and a User ID. If you are asked by a vendor (i.e. website provider) to provide your MLS ID, they could be referring to either of these codes, depending on which field they have incorporated for their product. You can find both of these numbers within the Paragon Agent Roster. Click Membership from the top menu bar, and then Agent Roster. Enter your last name within either the Agent Name or Agent ID field. The results will display both your User Code and your User ID. You can either clarify as to which field they are looking for, or just send them both codes.**

**\*\*\*If you need access to multiple tax records for a list of properties from Paragon, pull up the list of properties in Paragon via a search or lookup and select the listings. Once selected, click on the Actions drop down and select View in CRS Data. The selected listings will be imported into CRS, and all CRS functions, such as reviewing the assessment/tax info, viewing on the CRS map, and creating mailing labels will be available for this group of listings.**

Friendly reminder if you are unable to enter the correct date of the contract, send the MLS Number and correct date to [sue@rockgreenrealtors.org](mailto:sue@rockgreenrealtors.org) or 608-755-4841

Thank you, Sue

**Rock County Housing Statistics**

**Madison, Wis.**—April home sales and median prices were up significantly compared to the depressed levels a year earlier when the economic lockdown was in full force. Although new listings were up compared to April 2020, total listings fell 29.5%.

Months of supply fell to just 2.5 months statewide dropping by more than 20% in every region in the state. All regions are in a very strong seller’s market.

Thirty-year fixed-rate mortgage rates remained low at 3.06% in April, which has kept Wisconsin housing affordable even as median prices rose 9.9% over the past year. Homes are moving quickly, as average days on the market dropped 14.1% to just 85 days in April, down from 99 days a year earlier.

The national economy has now been expanding for three straight quarters, which began in summer 2020, but inflationary pressures are building. “Even though the end of the recession hasn’t been officially announced, the national economy has been growing since the third quarter of last year, and the initial estimates of first quarter real GDP growth came in at 6.4%. The good news is that the state unemployment rate has dropped more than 10 percentage points since peaking at 14.8% in April last year, and it stood at 3.8% in March this year. The concern is that the strong economic growth is starting to generate significant inflationary pressures. On an annualized basis, headline inflation increased from 1.4% in January to 4.2% in April.” –*Dave Clark, Marquette University Economist and WRA Consultant.*

**Rock County Housing Statistics**—The median price for April 2021 is \$196,500 and for the month of April in 2020 it was \$165,000 that was an increase of +19.1% and the **Sales** for April 2021 is 208 and April of 2020 was 174 that was an increase of +19.5%. In April of 2021 there was 2.3 months of **inventory** and in April of 2020 there was 3.0 that was a decrease of -23.3%. Average **days on the market** in April of 2021 was 64 and April of 2020 was 86 that was a decrease of -25.6%.

**Statewide Housing Statistics**—The median price through April 2021 is \$235,000 and through April of 2020 it was \$213,850 that was an increase of +9.9%. The sales through April of 2021 is 6,935 and April of 2020 was 6,052 that was an increase of +14.6%.

All county figures on sales volume and median prices are compiled by WRA and are not seasonally adjusted. Median prices are only computed if the county recorded at least 10 home

sales in the quarter. Beginning in 2018, all historical sales volume and median price data from 2015 forward at the county level have been re-benchmarked using the Relitix system that accesses MLS data directly. Data prior to January 2015 is derived from the Techmark system that also accessed MLS data directly.
